OUR SCHOOLS.

Our school facilities are entirely limited. With the resources at our command it is impossible to furnish sufficient accommodations. There are now three hundred children in attendance, and our teachers are overcrowded with work, each having from sixty to ninety scholars to look after—too many by half. The children are being herded, we may truthfully say; for some are required to sit on the teacher's platform. And still there are lots of little ones who do not go to school; whose parents would like to have them attend, but will not allow them to until sufficient accommodations are provided. The truth is we need more teachers, and especially do we require a larger school edifice. When the legislature meets we must pass a bill authorizing the issuance of bonds to the extent of \$20,000. Until that time we see no other course for the Trustees but to erect temporary structures to accommodate the scholars we now have, and the others sure to come during the year. We are opposed to any additional outlay of thousands of dollars until ways and means are devised for expending it upon a substantial structure—one that will not require mending and patching for the next ten years.

THE "KING'S" PROJECT.

Flood & O'Brien, managers of the Consolidated Virginia and California mining companies, announce their determination to represent the product of those mines for the month of May at the Centennial exhibition. During that month there will be placed upon those two mines a sufficient working force to take out an amount of ore that will produce \$10,000,000 worth of bullion. Arrangements have been made to employ the Sharon and other mills to assist in its reduction, and in June it will be forwarded to Philadelphia. It will require fifteen cars, bearing ten tons each. There will be 3,500 bars, or 100 tons of solid silver bricks.

Grass Valley Resources.—A telegram from Grass Valley, dated the 17th, says that the construction train of the Nevada County Narrow-gauge Railroad reached Grass Valley that evening. President Coleman ordered the train to steam into the depot and salute the town, which was done by blowing the whistle. The Grass Valleyans responded with the ringing of bells, flying the national colors to the breeze and joyous demonstrations from an immense concourse of men, women and children assembled at the depot ground to witness the advent of the first iron horse. Reno will be just as enthusiastic when the northern road is completed.

A NEVADA MAGAZINE.—The Carson Tribune learns that a "gentleman eminently qualified for the work, in conjunction with others of literary attainments, will shortly commence the publication of a magazine devoted to science generally and the interests of the State at large." It is not at liberty at present to give the names of the projectors of this enterprise, but promises to do so as soon as final arrangements shall have been made.

THE SERGEANT-AT-ARMS of the House of Representatives has received a letter from Augustus Schell saying: "I will issue a call for the Democratic National Committee to meet at Washington on the 22d of February to fix the place and time for holding a convention for nominating candidates for President and Vice President."

SARGENT has introduced a bill to amend the laws relating to silver coin. It proposes to make the trade dollar a legal tender at its nominal value for amounts not exceeding twenty dollars in any one payment, and silver half-dollars a legal tender for amounts up to ten dollars.

Crete (in the Mediterranean) desires to be annexed to England. It is now a part of the Sultan's dominions.

NEVADA STATE NEWS.

There were 20 marriages and three divorces in Pioche during the year 1875.

The debt of Elko county is \$97,335 03, a reduction of \$7,746 83 since last year.

The Chinamen at Elko are in the habit of selling whisky to the Indians, and of paying \$50 fine when detected.

Two of the prisoners in the County Jail at Eureka, have the mumps, one of them unusually severe, the disease having settled in the balls of his feet.

The Pioche Record says that many of the insurance policies there have been canceled in consequence of the extra risk caused by the constant freezing of water in the pipes at night.

Wood is selling for \$12 per cord in Eureka, while pretty good whisky can be procured at a bit a drink. Many people consider the latter cheaper fuel than the former.

The Con. Virginia's new assay office is very nearly completed—exteriorly. The molting furnaces are being built, and the various rooms partitioned off. The office will be the largest of its kind in the country outside of the Mints.

Alderman Dinsmore is going to introduce in the Common Council of Austin an ordinance providing for the removal of the Chinese wash-houses from all the streets, except those in the reservation known as Chinatown.

Dick Brown, former County Clerk of Lander, well known in Eastern Nevada, and who has recently been running the Silver Palace saloon in Virginia City, has been declared a bankrupt on his own petition.

The Nevada says that the explosion which created so much alarm in Austin a few days ago was caused by the editor blasting his corns with dynamite. The intolerable odor noticeable in the atmosphere about that time was doubtless attributable to the same cause.

MINING NOTES.

When in the course of human events it becomes necessary for stock brokers to tell the simple truth, we may look for the millennium.

We learn that the Segregated California intends to erect machinery and vigorously prospect the company's property. This is cheering news to the majority of stockholders, who have confidence in the value of this mine.

The North Monumental Gold and Silver Mining Company has incorporated, to mine in Gold Hill, with \$6,000,000 capital stock. The Directors are J. W. Movia, H. H. Hobbs, J. E. McDonald, D. W. Donahut and J. W. Penno.

A drift is being run in the Hale & Norcross to connect with the 2100-foot level of the Savage, for air.

Nothing can be done in the Best & Balcher until the Gould & Curry shaft shall have been retimbered.

The Consolidated Virginia ore-house is full to overflowing and all is going on smoothly both above and below.

A meeting of Yellow Jacket stockholders is called to meet at Gold Hill on Wednesday, March 15th, at 12 m., to consider the proposition to increase the capital stock from \$2,400,000 to \$9,600,000.

The California stamp mill is now in full running order. No less than 328 tons of low grade rock, were run through it to pulld the batteries, the hoisting of which entailed an expense of about \$5,000. A good deal of trouble was caused by the breaking of some of the stamps, but all damages have been repaired.

The National Temperance Society has issued a call for an International Temperance Conference in Philadelphia, June 13th, as a fitting occasion to consider the relations of temperance reform in its scientific, economical, intellectual, social, moral and religious aspects to individual and national life, its progress and needs, and to invite to its deliberations representatives of the cause of temperance from foreign countries.

THE NEVADA PRESS.

Views and Opinions on Current Topics and Events.

SENTENCE OF M. BOROWSKY.

One Borowsky, formerly of Truckee and Reno, has been sentenced for appropriating to his own use funds placed in his hands as Public Administrator of Eureka county, he was accused of a simple misdemeanor and on conviction fined \$2,000, or to imprisonment in the County Jail for a term of one thousand days. When passing sentence on Saturday last, remarks the Eureka Sentinel, the Court remarked that the highest penalty permitted by the statutes was entirely disproportionate to the offense, which, to his mind, was, in a moral sense, greater than that committed by the man whom he had a few days before sentenced to a term of three years in the State Prison; referring doubtless to the case of Keyes, who was sent the penitentiary for that period for embezzlement. The defendant was not in court, being confined to his bed by sickness, but the Judge directed the Sheriff to have him placed in the custody of an officer until he is able to be removed to jail. He is said to be unable to pay the fine, consequently we can perceive no alternative for him but imprisonment, unless his friends should raise the money or the Pardoning Board interfere in his behalf. While no one questions the justice of the sentence, the greatest sympathy is expressed for the prisoner's family, who are dependent upon him for their support.

DANGER OF THE FEDERAL PATRONAGE.

There are 51,000 persons in the employment or under control of the Postoffice Department alone. When we consider that there are other branches of the government service which employ or controls a proportional number of men, we can see what an immense leverage for the perpetration of his office the patronage of his hands gives the President. This Federal patronage, says the Austin Reformer, is a dangerous element in the hands of an unscrupulous man. Its probable effects were foreseen in the early days of the Republic, and as the country increases in population there is a proportionate increase in the number of officers in the civil service. The majority of these we can count as active partisans, and they constitute a small army of voters and political workers, whose votes and influence would naturally be used in favor of their patron. For this reason, if for none other, we are in favor of an amendment to the Constitution limiting the Presidential term. That the term is not limited is a defect in the Constitution; and though Grant may not be disposed to take advantage of it and continue his term of office indefinitely, some other man may.

An Item for the Centennial.

The Virginia Chronicle comments thus on the "king's" project. The eyes of our Eastern consuls will stick out so that you can hang your hat on them when they see that cord or so of bullion. But to quote:

We hope no accident may occur to prevent this magnificent idea from being successfully carried out. Such a mass of silver bullion was probably never seen in the world, and the remarkable exhibition will make the fame of Nevada's silver mines resound from the poles to the tropics. That the gigantic task can be accomplished we have no doubt. The ore deposit in the two mines named is the greatest in extent and richness ever known in the world's history. There is no question as to the supply—it is only a question of hoisting and milling facilities. The O. & C. shaft will doubtless be in operation before next May, and with that, the Gould & Curry, and if necessary the Ophir, there will be ample hoisting capacity.

As to the ore. The Consolidated Virginia is now hoisting daily about 600 tons of ore, which mills about \$100 per ton, making the monthly yield \$1,800,000. Soon after the fire when the hoisting works were destroyed and the only resource was the Gould & Curry shaft, it became necessary for them to send up richer ore to compensate for the deficiency in quantity. The Brunswick mill, it will be remembered, returned a fraction over \$175 per ton for all the ore worked there during the month of November. All mining experts who have visited the Consolidated Virginia's lower levels know that, if it had been necessary, ore running up into the thousands per ton could have been taken out. If the daily ore product were increased to 800 tons of a slightly better grade of ore than that worked at the Brunswick mill in November—say \$200 per ton—the bullion yield would be \$4,800,000. A few hundred tons of selected rock, from the richer sections, would give the \$5,000,000 without any trouble.

As to the California mine, everybody in Virginia knows that it is considered even richer than Consolidated Virginia. It contains a mountain of glittering ore, hitherto untouched excepting for as was necessary in running the drifts and cross-cuts to prepare it for working. All it waits for is the mills. A thousand men can be set at work in the mine at any time, and if the mills are furnished, California's quota of \$5,000,000 will certainly be forthcoming.

NEW TO-DAY.

"PUTS" AND "CALLS."

WE MAKE "PUTS" AND "CALLS" A specialty. This system of dealing in stocks is gaining in popularity every day, as it enables persons of small means to take advantage of the rise and fall of high-priced stocks. Hundreds of persons every day clear from 200 to 2,000 per cent. on money invested in "Puts" and "Calls."

We have a large cash capital, and are thus enabled to fully protect our certificates.

We have references from parties all over this Coast.

The market is lively; now is the time to invest.

We also BUY AND SELL STOCKS ON COMMISSION, and loan money on them.

Distress Court.—The following is the proceedings in the District Court for the past two days:

In case of State vs. W. B. McQuinn. The defendant plead not guilty. Set for trial February 2d.

Lake vs. Rhodes. Citation to defendant to appear and show cause why he should not be punished for contempt for violation of decree. Hearing continued until the 22d.

Fonkes vs. Tolles. Motion to strike out a portion of answer, allowed ten days to amend answer.

Walker, Knust & Co. vs. Pettinello et al. Set for trial for January 31st.

The case of State of Nevada vs. Mammal Dams charged with robbery then came on trial and occupied the Court all day. The jury finding a verdict of guilty as charged. Defendant ordered to appear Saturday next for sentence.

ASSESSMENT.—The Lake View Gold and Silver Mining Company has levied an assessment of two cents per share, delinquent in office Feb. 21st. This company holds property in Black Butte Mining District, near Wadsworth.

When you want groceries, provisions, canned fruit, apples, nuts, candies, etc., give J. H. Wyman, on Plaza street, your order. He will fill it satisfactory, even if he makes no profit on the goods.

A Protestant girl or woman can find a good home, and \$25 a month, if she will address P. O. box 63. The applicant will have general housework to do.

WATSON & BARK have dissolved co-partnership. Hereafter Watty will have entire control of the Saddle Rock Restaurant and settle the business of the late firm.

PURE AND CALLS.—Among the San Francisco stock brokers who are making "pinks" and "calls" a specialty, we find Chas. Larue & Co., No. 423 Montgomery street. This is getting to be a very popular method of dealing in stocks, allowing people with a small amount of capital to invest the same to the greatest advantage in the very highest priced stocks if they see fit. Read the statements, facts and figures in this matter; as set forth in Larue & Co.'s advertisement, and exercise your judgment accordingly.

RAILROAD CHANCE.—M. V. Follet, the well known conductor of the local passenger cars, has been placed in charge of the through passenger train between Virginia City and Reno. Ed. Vorril, who succeeded poor Harry Shrieves has been compelled to resign his position as conductor in consequence of ill health, and has with his family gone to Southern California to recuperate.

BOARD OF TRADE.—Owing to the Court-room being occupied on Monday evening the proposed meeting of the Board of Trade necessarily had to be adjourned. The meeting will take place on Thursday evening at the Reno Library Rooms, and it is earnestly desired that all of our business men should be in attendance.

TRUCKER AGENT.—Mr. J. F. Greeley is our authorized Truckee agent. All orders for the Journal must be given to him. Mr. Greeley is an efficient agent and will attend to all orders promptly. He will deliver the paper to Truckee subscribers at the usual rates.

The case of Charles Crocker, substituted for Contract and Finance Co., Plaintiff, against Pon Chung et al., was argued and submitted yesterday and taken under advisement by the Judge.

The social dance of the Reno Library Club is set down for to-morrow evening. To pass away a few hours we know of no better place.

The pay car went through town yesterday, and while here left a few duents to gladden the hearts of the boys.

SENATOR JONES' Kamville (Cal.) mine is likely to prove a second Comstock. An immense ledge of ore, easily assaying \$300 to the ton, has been disclosed, and a body of ore which is estimated at 600,000 tons has been discovered by shafts, levels and cross-cuts.

Stokes, the member of Fisk, still entertains hopes of a pardon. His counsel are trying their utmost for his release on a writ of habeas corpus if possible. An appeal will be made to Court for a ventilation of the whole case.

SPECIAL NOTICES.

FOR SALE.—A lot, 28x100 feet, situated on Plaza street, is offered for sale at a bargain. For particulars inquire of G. D. BARNETT.

DR. GREYER is having remarkable success in curing all general practice, with a constantly increasing business. He is not confined to any particular method, system, but is governed by the knowledge accumulated from careful study, and an extensive practice of over thirty years.

R. M. VESLEY is happy to inform the public that he has leased the Lake House, Reno, where he will be pleased to wait upon the travelling public, hoping to receive a share of their patronage.
